Dear Mr Brett

I would like to object again to the above ammendments to the planning application as I feel Newcastle Road is busy enough without more houses being built to the rear of 17-19. The road now is full of parked cars mainly caused by developers turning houses into HMOs, a double decker bus every 10 minutes, school parking and shops. If this development goes through we will have to contend with construction vehicles plus the above. I have viewed the plans and do not see how 9 dwellings would fit into that space with parking. I'm sure it will impact and put more pressure on an already over busy road. Also how are the refuge lorries going to get up that road and turn around ?

Thanks

Jane Vango
8 Newcastle Road
