Comment: Hi, as the owner of the fish and chip shop, JFC Wensley Road, less than a stone throw away from this application I strongly object this application. There is no need for me to inform the council of the struggle of takeaways at this present time in the current economic climate. With rising costs in relation to gas, electric, staff wages, cost of goods, rent and potatoes including a new fish and chip shop in the area would make it impossible for us to run our family business and end in closure of another takeaway in Reading. Opening another fish and chip shop here would be detrimental to us and our family. We urge the council to please strongly consider this when looking at this application. Furthermore being a business owner in this area for the past 17 years I know how busy Berkeley avenue is and the amount of accidents that happen on this road. The 2 spaces highlighted in the plans will be occupied by the shop owner and the flat above meaning customers will be parking on a double yellow line to run in or dine in as their is planned seating inside. This would cause absolute havoc and major congestion on a already very very busy road.
