

Food – waste management

The application site address

20 Portman Road

Reading

RG30 1EA

Refuse storage arrangements provided within the rear of the building, as shown in the plans, before the use commences. This shall comprise at least one 1100L Eurobin waste storage bins together with separate facilities for the separation and storage of glass, metal, plastics, cardboard, food waste and other recyclable materials, which shall then be collected and taken to a suitable facility for recycling. No waste shall be stored outside the site. The lids of the Eurobin(s) shall be kept shut at all times other than when waste is being emptied into them or being removed from site through a waste management contract. Non-recyclable and perishable waste shall be removed from site no less frequently than once a week or as soon as the storage becomes full, whichever is the earlier.
