---

Application Number: 230974

Name: Martin Jukes

Address: 17 Warwick Road, Reading, RG2 7AX Comment Type: Observation

Comment: This development will have a severe impact on Cintra Park, a much loved and well used green recreation area. The scale of the buildings will change the character of the park and also bring additional traffic to an already congested area.

Reading does need new homes but they should not be built where they undermine important recreational facilities. There are many hectares of brown field sites which could be used.

Green spaces are rare in Reading and need to be valued and protected.
