

The above photos show the 8-car parking that are a part of the site. These car parking spaces will be used by the employees, as well as any clients.

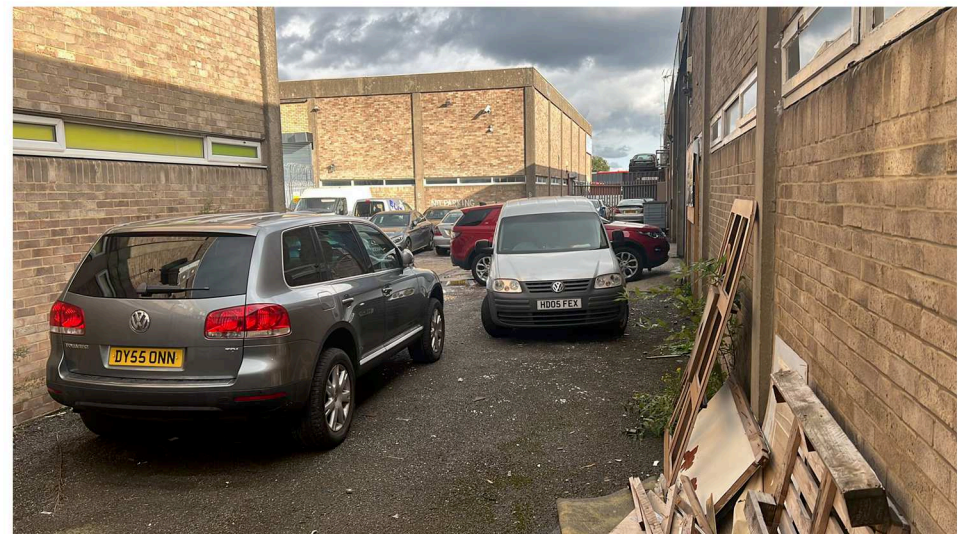

The additional parking spaces are shown in the yellow box.

The two photos on the right show the yard parking directly to the rear of 20 portman road, there is enough space here for 3 vans or cars, which would be used for deliveries coming in and out of the site. This has been highlighted with the blue colour on the plan.

The proposal also includes an internal parking bay, for vehicles to come into the factory and load and offload its load.

The green square on the main property shows the internal delivery area

There will be a maximum of 5 deliveries a day from the warehouse, with 5 staff members working within the unit.

There will be no general public access to the site.
