Application Number: 230974

Name: Annette Juckes

Address: 17 Warwick Rd RG2 7AX

Comment Type: Observation

Comment: This development will severely impact Cintra Park which is a much loved and well used green space in Reading. 9 multi-storey dwellings will spoil the beautiful view from the park, bring in much more traffic, noise and air pollution and cause a general degradation and decimation of the urban green space.

Reading is a densely populated and built-up area where green spaces are rare. The residents of Reading need clean air and peaceful green spaces to relax, play sports and walk their dogs.

Reading does need new homes, too, but they should be affordable and built on the many hectares of brown fields which exist in Reading, and not on the few remaining green sites.
