### 7. Specific technical complexities

Explain any specific technical complexities in terms of fire safety (for example green walls) and/or departures from information in building schedule above

Guide: no more than 500 words

No changes to be made from existing fire strategy

### 8. Issues which might affect the fire safety of the development

Explain how any issues which might affect the fire safety of the development have been addressed.

Guide: no more than 500 words

No changes to be made from existing fire strategy

### 9. Local development document policies relating to fire safety

Explain how any policies relating to fire safety in relevant local development documents have been taken into account.

Guide: no more than 500 words

No changes from existing fire strategy adopted at build

### Emergency road vehicle access and water supplies for firefighting purposes

### 10. Fire service site plan

Explanation of fire service site plan(s) provided in 14. including what guidance documents have informed the proposed arrangements for fire service access and facilities?

Guide: no more than 200 words

No changes from existing fire strategy

**11. Emergency road vehicle access**

Specify emergency road vehicle access to the site entrances indicated on the site plan

Guide: no more than 200 words

As existing strategy

Is the emergency vehicle tracking route within the site to the siting points for appliances clear and unobstructed?

yes

**12. Siting of fire appliances**

Guide: no more than 200 words

As existing strategy

**13. Suitability of water supply for the scale of development proposed**

Guide: no more than 200 words

No change from existing requirements

Nature of water supply:

hydrant- public

Does the proposed development rely on existing hydrants and if so are they currently usable / operable?

yes

**14. Fire service site plan**

Fire service site plan is:

inserted in the form

As existing strategy
