

COPYRIGHT: All rights described in Chapter IV of the Copyright, Designs and Patents Act 1988 have been generally asserted.

MEASUREMENTS: All dimensions and areas shown are 'as designed' and are measured to wall face (excluding skim finishes) unless otherwise indicated. Actual (as built) dimensions and areas include building tolerances. They will therefore vary accordingly and are to be confirmed by site measurement. Always verify that areas shown have been updated to reflect the current design. If in doubt, please request confirmation.

DISCREPANCIES: Divergence/Discrepancies are to be reported to the design team for clarification.

COORDINATION: This document is to be read with all other documentation prepared by CSP and other Consultants/Specialists together with the project compliance approvals (e.g. Planning and Building Regulations) as these documents provide complementary information.

FORMAT: The current CSP design information is published in PDF format. Other file formats are uncontrolled and may contain WIP information. Always compare them with the latest PDF file(s) to verify content.

HEALTH & SAFETY: Construction, maintenance and demolition activities relating to this project are to be planned and carried out by competent contractors as defined by the CDM regulations. Risk assessments and method statements are to be prepared prior to works commencing.

USE: For Planning purposes only - NOT FOR CONSTRUCTION

CDM: Refer to Hazard ID drawings for information about residual hazards (significant, unusual, project-specific hazards that might not be obvious or might be difficult to manage for competent contractors and designers) associated with the architectural design include:
