Condition No. 6: Litter Strategy

“Prior to the First occupation of any Sui generis (Hot Food takeaway) use hereby permitted, details of the litter strategy shall be submitted to and approved in writing by the Local Planning Authority. The approved measures within the strategy shall be implemented prior to the first occupation of the Sui-Generis (Hot Food Takeaway) use and be permanently retained and maintained thereafter.”

Litter Strategy:

The proposed takeaway will be serving hot food and majority of the food will be for takeaway to be eaten away from the premises but there can be a small number of customers who might consume the food on site.

For the customers who will be consuming the food on site, waste and recycling bins will be provided at the key (accessible) location as shown on the plan (Plan no: ART/2022/COND6/PL).

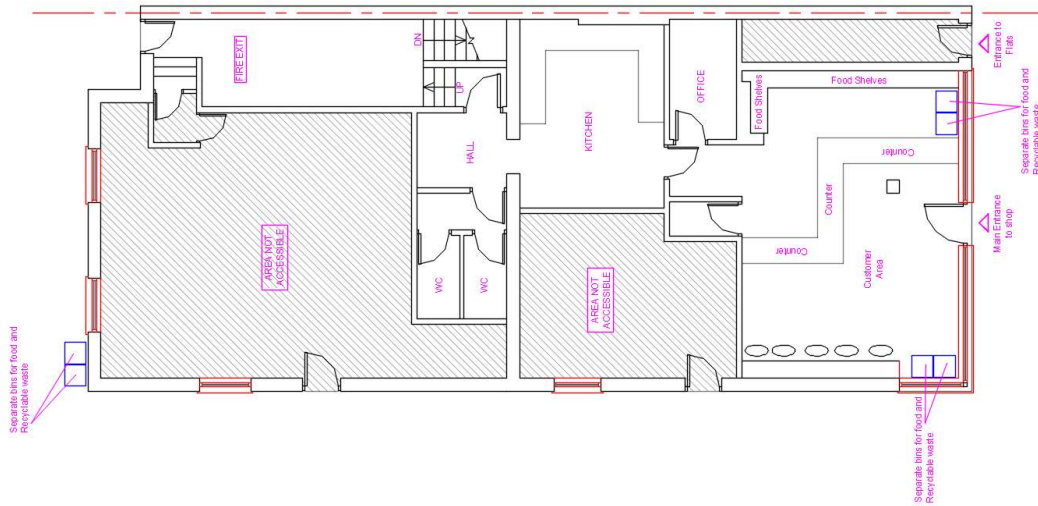

To maintain the cleanliness within the take away, following steps will be followed:

- a) The bins will be checked and emptied throughout the day.
- b) Staff will be checking and clearing any litter dropped within premises, throughout the day.

To maintain the surrounding and car park of the takeaway, following steps will be followed:

- a) Waste and recycling bins will be provided in the rear car park (Adjacent to the main building, as shown on the plan: ART/2022/COND6/PL)
- b) During opening hours, staff will carry out litter patrol every 3 hours in the following areas:
 - i) Pedestrian pathway in front of the takeaway
 - ii) Side Carpark access
 - iii) Rear Customer car parking.And covering the immediate neighbouring businesses as and when required.

Relevant litter signage will be installed at visible locations, both within in the shop and outside the shop. Customers will be encouraged to make use of bins provided and act responsibly within surrounding areas, to keep inside and outside of takeaway clean.

Further, In the post COVID 19, Food and Beverage businesses have seen a major shift towards online delivery services. We suspect our substantial percentage of takeaway orders will be via UBER EATS, JUST-Eat and DELIVEROO, which will help in keeping the area clean.
