2.0 Application Location

This report is to support an application for materials that have already been used in the construction of the residential conversion covered under previous consents 16/1550 & 16/1551 but did not have all of the conditions discharged correctly.

The brickwork used in the project was carefully selected to match closely with the existing brickwork of the building, a close up photo of the new brickwork can be seen on the previous page.
