

Refuse and Recycling Details

Food and Drink Quarter, Reading Market

REF: P20-0271

DATE: 21st February 2022

-
1. The following details the of the refuse and recycling provision for the approved Food and Drink Quarter at Reading Market. They should be read alongside the approved Litter Strategy.
 2. Waste and recycling points will be provided throughout the site, adjacent to each food and drink outlet, and at the entrance, as shown on the plan provided at Figure 1. Clear signage will be provided within the site to request customers responsibly dispose of their waste / recycling.
 3. Waste and recycling receptacles will be emptied on a regular basis and at the end of each day, with the waster being transferred to relevant bins in the waste storage area prior to collection.
 4. All waste and recycling will be stored in sealed waste bins within the storage area prior to collection.
 5. Waste and recycling will be collected twice a week from Hosier Street and currently allows for collection of six bins, within which there is sufficient capacity within to accommodate the waste from the development once operational.
 6. The site will be serviced by an annual pest control contract with 12 scheduled visits a year by a suitable contractor whose technicians are members of the British Pest Control Association and will cover the following:
 - The contract would cover rats and mice and monitoring for cockroaches.
 - Baits will be laid and inspected at regular intervals.
 - Written reports will be supplied after each visit, setting out any action taken and any future recommendations.
 - The contract will also cover any required additional call outs.
