

Volume 1: Environmental Statement Main Report

Table of Contents

1 Introduction		Proposed Development Operational Provisions and Controls	4-16
Introduction	1-1	5 Demolition and Construction	
Development Context	1-1	Introduction	5-1
Planning Context	1-4	Programme of Works	5-1
Application Details	1-4	Description of Works	5-2
Applicant	1-4	Enabling Works	5-2
Project Team	1-5	Demolition Works	5-3
Environmental Statement	1-5	Construction Works	5-3
2 EIA Process and Methodology		Open Space, Public Realm and Road Works	5-4
Introduction	2-1	Utilities and Services Installation	5-4
Environmental Impact Assessment	2-1	Demolition and Construction Contracting Strategy	5-5
EIA Process	2-2	Materials and Resource Use	5-6
Scope of EIA	2-2	Trips, Access and Routing Arrangements	5-8
EIA Approach	2-3	Environmental Controls and Mitigation	5-10
Technical Assessment Chapters	2-9	Cumulative Demolition and Construction Effects	5-17
3 Alternatives and Design Evolution		Summary	5-17
Introduction	3-1	6 Socio-Economics	
Development Objectives	3-1	Introduction	6-1
Development Considerations	3-1	Methodology	6-1
Environmental Considerations	3-1	Baseline Conditions	6-6
Alternatives	3-2	Assessment of Effects	6-14
Public Engagement and Consultation	3-4	Assessment of Residual Effects	6-17
Conclusion	3-4	Summary of Residual Effects	6-17
4 Proposed Development Description		Cumulative Effects	6-18
Introduction	4-1	7 Air Quality	
Proposed Development Description	4-1	Introduction	7-1
Site Arrangement and Land Use	4-2	Methodology	7-1
Open Space and Public Realm	4-9	Baseline Conditions	7-5
Access and Egress	4-9	Assessment of Effects	7-8
Parking	4-9	Assessment of Residual Effects	7-11
Waste Management	4-12	Summary of Residual Effects	7-11
Proposed Development Plant and Ventilation	4-12	Cumulative Effects	7-12
Proposed Development Utilities	4-13		
Proposed Development Resources, Emissions and Residues	4-15		
Proposed Development Sustainability	4-15		

8 Noise and Vibration

Introduction	8-1
Methodology	8-1
Baseline Conditions	8-5
Assessment of Effects	8-9
Assessment of Residual Effects	8-3
Summary of Residual Effects	8-10
Cumulative Effects	8-10

9 Wind Microclimate

Introduction	9-1
Methodology	9-1
Baseline Conditions	9-5
Assessment of Effects	9-6
Assessment of Residual Effects	9-9
Summary of Residual Effects	9-10
Cumulative Effects	9-11

10 Daylight, Sunlight, Overshadowing and Solar Glare

Introduction	10-1
Methodology	10-1
Baseline Conditions	10-6
Assessment of Effects	10-8
Assessment of Residual Effects	10-12
Summary of Residual Effects	10-13
Cumulative Effects	10-13

11 Cumulative Effects

Introduction	11-1
Intra-Project Cumulative Effects	11-1
Conclusions	11-4

12 Residual Effects and Mitigation

Introduction	12-1
Additional Mitigation and Enhancement	12-1
Residual Effects	12-1
