

The floor plan shows the layout of the first floor. A red line traces a path starting from the 'FIRE ESCAPE' area, passing through the 'plant access stair' and 'WC' area, and then following the perimeter of the 'SECURE LOADING BAY' area. The 'SECURE LOADING BAY' is divided into two sections by a horizontal line, with 'security shutter' labels on the left side. To the right of the loading bay is a large open area with a 'RAMP UP' arrow pointing towards a 'BRIDGE' area. A 'WC' (toilet) is located near the top center. A 'plant access stair' is located near the top left. A 'FIRE ESCAPE' is located at the top left. A 'BRIDGE' area is located on the right side. A 'RAMP UP' arrow is located in the bottom right area.

The floor plan shows a central 'VAULT LOBBY' area. To the left is 'VAULT 2', which contains a semi-circular structure. To the right is 'VAULT 1', which is a large rectangular area with a dashed vertical line down its center. A red line traces a path starting from the top left, going right, then down, then right again, enclosing the central lobby and Vault 1. Another red line segment is visible on the far right. Stairs are located at the top left and top right of the plan. A square room with an 'X' is situated between the top right stairs and Vault 1.
