Disclaimer:

The recommendations contained in this Report represent Ground Control's professional opinions, in exercising the duty of care required of a suitably experienced and qualified Arboriculturist Surveyor / Arboricultural Consultant. All data recorded and recommendations made are based on observable factors present at the time of inspection. Inspections consist of a ground based visual inspection only. Where access to carry out a full inspection is not possible due to reasons such as vegetation, topography, fencing or other situations that the surveyor feels are unsafe, the Arboriculturist will make appropriate notes within the survey schedule. The mitigation recommendations, or any other conclusions do not preclude the possibility of failure from undetected conditions, weather events, or other acts of man or nature. Trees can unpredictably fail even if no defects or other conditions are present. Ground Control can make no warranty or guarantee whatsoever regarding the safety of any tree, trees, or parts of trees. The report has been prepared by Ground Control Ltd for the sole and exclusive use of the Client and for the specific purpose for which Ground Control were commissioned. Ground Control accepts no responsibility or liability for any use that is made of this document other than by the client for the purposes for which it was originally commissioned and prepared. Use of the Report by any other person is unauthorised and such use is at the sole risk of the user.
