

Waste Management Plan

Fat Twins is a responsible business and are committed to minimising their impact on the environment, promoting good waste management practice.

This policy sets out their approach to managing their environmental impact from waste. Fat Twins aim for continual improvement in mitigating direct environmental impact, reducing use of natural resources and preventing pollution.

Fat Twins will:

- Ensure compliance with all environmental legislation applicable to their business and operations.
- Ensure that any waste created through the business will be disposed of in a safe and environmentally friendly manner.
- Staff will be instructed to regularly check around the premises to ensure that any litter left outside of the immediate vicinity of the business will be collected and disposed of.
- Ensure that waste bins are provided for customers close to the exit doors and made visible with clear signage so that customers are encouraged to dispose of their waste in store rather than take with them.
- Ensure that recyclable waste generated from the shop operation is separated from non-recyclable waste.
- Enter into an agreement with a private contractor such as Veolia for the separate weekly collection of both regular waste and recyclable waste.
