

New England Bird Box-Type 1

The new England decorative bird box features an attractive lapboard construction and shingle roof, has a hinged side panel for maintenance and a 32mm protective hole plate.

New England Nest Box

The New England Nesting Box is manufactured in the style of New England beach huts, this makes a nice decorative garden bird box to compliment your landscape whilst also providing a home for nesting birds.

The New England bird box features a shingle pink style roof and a rough sawn lap board construction. There is a hinged side panel which can be opened for maintenance, has a metal hook for ease of fixing and benefits from a plated 32mm entrance hole to attract the widest range of garden birds.

This attractive New England Nesting box has been manufactured from slow seasoned FSC timber, some defects may occur in appearance to grain, colour coating or shape and is a natural occurrence with this type of wood. The wooden bird box can be coated each season using a water based paint to maintain appearance or change of colour if required.

New England Bird Box dimensions:

H 250mm W215mm D175mm (including roof)

Weight: 0.65kg

32mm entrance hole

Metal hanger for fixing

Apex Classic Bird Box-Type 2

This Classic style FSC ® certified timber 32mm entry hole bird box is suitable for a wide range of garden birds.

If you want to exclude larger species you can reduce the entrance hole to 25mm with a nest box plate (R0110).

Made in the UK with thick FSC ® certified timber for strength and durability, this box has good insulation properties, with drainage holes and a side panel, secured with a screw, that pivots open for easy end-of-season cleaning.

Installing your nestbox

For secure and stable fixing, there are two hanging tabs attached to the back of the nestbox, one at the top and one at the bottom. These tabs make it quick and easy to securely fix it in place. Screws not supplied
