Dear Sian,

Thankyou for the information on my application to renew roof covering on the above property.

I have enclosed 4 copies of design and access statement, and 1:1250 location plan to be added to my initial application.

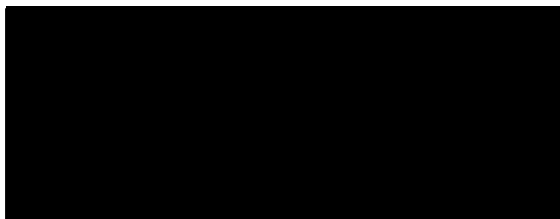

Also attached are photos of the roof in it's present state.

Design and Access Statement

The roofing slates have degenerated over the past 40 years and are in poor condition. These will be replaced with like for like and will make the property weather proof and at the same time new felt and battens will be installed.

This will not affect the look of the building.

Best regards

Geoff Adderley
