Andrei Nazare, Planning

Dear Mr. Bee,

RE: PROPOSED WORKS TO ONE SYCAMORE TREE AT 20 SHILLING CLOSE, READING - T13 OF TREE PRESERVATION ORDER NUMBER 145/06.

Thank you for your application of 1 November 2020, regarding the above.

Further to my visit with my colleague Sarah Hanson on 15th December 2020, I can confirm that the following proposed works, as detailed in your application, are approved subject to the conditions below, with reference to annotated photograph:

1. Sycamore tree (T13 of TPO, T1 of application)
 - Crown lift to 5 metres
 - Crown lift over bungalow roof to secure 3 metres of clearance
 - 15% crown thin, predominantly made up of Crown cleaning and dead wood removal

I note the overall tidy condition of the crown and the already high crown clearance from ground level. During our visit I could identify 2 branches that are within the required clearance to the bungalow roof. I have indicatively marked on the photograph below the extent of their length that is approved for removal.

Conditions

1. Five days' notice in writing shall be given to the Council prior to undertaking the approved works.

Reason: To ensure that the Local Planning Authority is given sufficient notice of the works to enable the effective monitoring of tree work within the Borough.

2. All tree surgery shall be in accordance with BS 3998: (2010) Tree Work - Recommendations.

Reason: To ensure that all works are carried out in an acceptable arboricultural manner

3. Climbing spikes shall not be used whilst undertaking any form of works on living trees, except on trees to be felled.

Reason: Spikes can cause extensive long-term damage

4. Crown cleaning should not include the removal of fused natural braces (branches or stems), or the removal of entwining branches or rubbing branches (where they may be forming a natural brace) from the crown of a semi-mature to fully mature tree without carrying out an assessment of any junctions formed below such natural braces.

Reason: Removal of natural braces may lead to failure of weak unions.

Informatives

1. You are advised that, in accordance with Part 4, 17 (4) of The Town and Country Planning (Tree Preservation)(England) Regulations 2012, this decision is valid for one pruning operation (as per the approved specifications) to be undertaken within two years from the date of this notice, after which the consent lapses and a new application will be required.
2. Removal of dead or dangerous wood: This does not require the formal consent of the Council. However written notice must be given 5 working days in advance of removing dead wood. Where a branch is deemed to be 'dangerous', i.e. where works are 'urgently necessary to remove an immediate risk of serious harm', you are required to give notice to the Council 'as soon as practicable after the works become necessary'.
3. Disturbance of wildlife: It is an offence under the Wildlife and Countryside Act 1981 (as amended) to disturb roosting bats or nesting birds. It is advisable to consult your tree surgeon/consultant to agree an acceptable time for carrying out any work. Wildlife and habitat controls are administered by Natural England who can be contacted on 0300 030 6000
4. It is best to avoid works in the period immediately before or during bud burst and leaf fall to minimise the effect on the long-term health of the tree

If you wish to appeal against any of the conditions attached to this consent, please contact the Planning Inspectorate within 28 days of receipt of this letter to obtain the relevant forms:
