

# 360 Litre Wheelie Bin

Source: <https://www.wheeliebins.co.uk/360-litre-wheelie-bin.html>

The capacious and remarkably affordable 360 Litre Wheelie Bin is suitable for a family home or mid-size business that disposes of up to six bags of trash per collection period. Constructed of high density polyethylene which endures both sunlight and freezing temperatures without degrading, its rounded corners and smooth interior make it a breeze to clean. The tyres are solid rubber, with steel spring loaded locking pins that secure them in a fixed position when desired; the axle is also corrosion resistant.

Compatible with standard lifting equipment, the 360 Litre Wheelie Bin features a strengthened front rim which engages securely with the lifting clamps. You are assured of reliable performance, as it has passed both severe usage testing at the UK factory and EN840 safety standards approval.

The 360 Litre Wheelie Bin may be ordered in the following colours: Charcoal Grey, Green, Yellow, Brown and Blue. These bins can be hotfoil stamped, this would be subject to a minimum order quantity, please contact us for details

**An aperture is a gap or opening in the lid, we offer a circular hole, paper slot or a paper slot with a deflector plate, the deflector plates are angled plates inside the opening to stop people from reaching in through the slot, the apertures are not used for standard wheelie bins**
