Re: Proposed replacement window
At: 25 Arbour Ct

The Property

The property is a traditional built grade 2 listed terraced house.

The Objective

To replace damaged window to match existing due to the window being in poor condition and the upper sash has rotted through, there have been other historical repairs to splice the outside linings.

The Proposal

The proposal is to replace the window that meets with listed building requirements to maintain a high standard

The materials and design

The existing window is a sliding slash hardwood window with a white painted finish.

The needs of the disabled or older people are not affected.

Regards

Andy Mead
