Does your client require additional funding for this project?

Some lighting projects are eligible for assistance with financing from various government and private organisations aimed at reducing the country's electricity consumption and subsequent CO2 emissions including 'The Energy Saving Trust, 'Green Deal', 'Salix' and the 'Enhanced Capital Allowances' scheme. Ansell Lighting can help with creating a lighting specification that fits the criteria.

To find out if this proposal meets the criteria for funding from one of these incentives, please refer to the following websites www.gov.uk/green-deal-energy-saving-measures/overview, www.salixfinance.co.uk, www.energysavingtrust.org.uk, www.etl.decc.gov.uk/etl/site.html, who are able to offer help and support in applying for funding. For more information on luminaire performance, energy consumption and CO2 savings please contact the originator of this email.
