

Tree Report
6 Ferndale Close, Tilehurst, Reading, RG31 6UZ
17.08.2020
Mr T Twigger

1. To provide an onsite assessment of the trees condition and produce a report to apply for Local councils work approval.

2. **Site Description & details** Private Home
Trees are covered with a Blanket TPO
Level Lawn area
Surrounding area frequently used by Home owners
(T2) Mature Lime tree – Pictured below

The pictures below show the canopy spread and the approximate crown reduction we intend on completing.

Conclusions & Recommendations - (L) Low, (M) Medium, (H) High

(T2) Medium – This Mature Lime tree is in good condition but due to the proximity to the property it offers potential risk if the tree deteriorates with age or is damaged in bad winds.

We intend on reducing trees height by approximately 4m using nearest suitable reduction points and reduce canopies radius by approximately 3m not pruning beyond the previous reduction points and taking care not to damage or remove the emerging pollard knuckles.
