2. The granting of Prior Approval relates only to the change of use of existing floorspace and land. If external alterations or extensions to the building are intended, a separate planning application is required for these works.
3. The grant of prior approval does not certify that the proposed development would be lawful within the meaning of Section 191 of the Town and Country Planning Act 1990. If you wish to obtain confirmation that the proposed development would be lawful and that no enforcement action could be taken against it, you can apply for a Certificate of Lawfulness. A fee is payable for this. Further information can be found on the Planning Portal: https://www.planningportal.co.uk/info/200126/applications/60/consent_types/9
4. A building which has changed use under Class M is to be used as a dwellinghouse within the meaning of Class C3 of the Schedule to the Use Classes Order and for no other purpose, except to the extent that the other purpose is ancillary to the primary use as such a dwellinghouse.
5. Complaints are commonly received about noise and dust caused by construction and demolition works, particularly working outside reasonable hours and smoke from bonfires associated with the burning of waste on site. The developer is reminded that construction and demolition associated with the approved development will be subject to environmental health law.
6. It is likely that the works set out in this application will also require approval from the Council's Building Control office to ensure compliance with any relevant building regulations. It is therefore assumed that concerns about fire safety, means of escape, ventilation and sound insulation will be reviewed and addressed by Building Control if works proceed. Please contact Building Control on 0118 937 2449 for advice.
7. Any external works not specified on the approved plans will require separate planning permission.
8. The Local Planning Authority has worked positively and proactively with the applicant to resolve relevant matters to allow permission to be granted within the prescribed target or agreed extended timescale for the decision to be issued.
