Timber French Doors

We manufacture and install bespoke, timber French doors to suit the period character of your home.

Also referred to as **patio doors**, **balcony doors** or **French windows**, timber **French doors** are a double set of doors located at the rear of the property.

French doors can be designed to a range of different styles to suit your property. We can either match the style of your existing doors or provide a design to your precise requirements. As specialists, we offer a wide range of styles of French doors to suit **Victorian**, **Edwardian**, and **Georgian period properties**.

Trustpilot Rating: 4.9/5 - 113

Made to Measure Traditional French Doors

All our new French doors are made to measure to meet your specific requirements. Our external wooden doors are manufactured in our Berkshire workshops by our expert craftsmen and the individual design is agreed with you prior to manufacture. We manufacture our timber doors to traditional requirements to suit your period property. Where necessary, we can conform to **conservation area** and **listed property** requirements.

To replace your French doors in London and the South, [contact us for a FREE quote](#) or call: 01344 868668.

External Replacement French Doors

The Sash Window Workshop offer a supply and install service across **London** and the South, with a supply only service across the whole of the UK.
