

Brink Excellent 180 - Heat Recovery Ventilation

The Brink Renovent Excellent 180 is a mechanical ventilation with heat recovery unit with an efficiency of 95%, low-energy fans and a maximum ventilation capacity of 180m³/h. The Brink Renovent Excellent 180 comes ready to plug in with a 230V mains plug and a connection for a low voltage multiple switch on the outside of the appliance.

Features of the Renovent Excellent 180:

- Adjustable air flow rates via control panel
- Filter change indication
- Frost protection
- Summer by pass
- Low energy consumption
- High efficiency

Dimensions

The Brink Renovent Excellent is a heat recovery ventilation unit with an efficiency of 95%, a maximum ventilation capacity of 180 m³/h and low-energy fans.

Features Renovent Excellent 180:

- steplessly adjustable air flowrates through a control panel;
- filter indication on the appliance and the possibility for filter indication on the multiple switch;
- a frost protection system which ensures that also at low outdoor temperatures the appliance's performance remains optimal and that, if necessary, it activates the standard preheater;
- low sound level;
- comes as standard with automatic bypass function
- constant flow control;
- low energy consumption
- high efficiency
