

The diagram shows a complex, irregular black outline representing a building footprint. A white rectangular box is superimposed on the right side of the footprint, labeled 'Plan area' with a line pointing to it.

ROADWAY

retaining wall

Figure 10.1

Diagram illustrating the cross-section of a pavement structure. The top layer is labeled "pavement" and has a thickness of 15 cm. Below it is the "subgrade" layer, also labeled with a thickness of 15 cm. The total thickness of the structure is indicated as 30 cm.
