Dear Mr Shah

**RE: PROPOSED FELLING OF TWO HORSE CHESTNUT TREES AT 58 EDENHAM CRESCENT,
READING - T5 & T7 OF TREE PRESERVATION ORDER NUMBER 59/06.**

Thank you for your application of 18 May 2019, regarding the above.

Further to my visit on 10 June 2019, I can confirm that the following proposed works, as detailed in your application, are approved subject to the conditions below:

- T5 Horse chestnut – fell. The tree is in poor condition with a significant number of cankers present and areas of bark death.
- T7 Horse chestnut – fell. The overall vitality of the tree is in decline, the majority of the tree/branches are affected by cankers with bark delamination present in multiple places and bleeding canker was noted on the lower trunk.

Unfortunately the condition of the trees has now reached a stage where the risk they present outweighs the amenity value they provide, hence felling is reasonable.

Conditions

1. Five days notice in writing shall be given to the Council prior to undertaking the approved works.

Reason: To ensure that the Local Planning Authority is given sufficient notice of the works to enable the effective monitoring of tree work within the Borough.

2. All tree surgery shall be in accordance with BS 3998: (2010) Tree Work - Recommendations.

Reason: To ensure that all works are carried out in an acceptable arboricultural manner

3. This decision is valid for two years from the date of this notice after which the consent lapses

4. Following the felling of the two trees authorised by this consent, two replacement trees of a minimum 8-10cm girth and 2.75m in height shall be planted within the rear garden during the planting season (Nov-March) following or at the time of the felling of the trees, whichever is soonest, the species of which shall be agreed with the Council.

Planting should be carried out in accordance with clause 10 (Planting) of BS 8545:2014 'Trees: from nursery to independence in the landscape - Recommendations'

Should the replacement tree be removed, die or become severely damaged or seriously diseased, all within 5 years of planting, it shall be replaced by a tree of a similar size and species to that originally planted. Modifications to the requirements of this condition must be agreed in writing with Reading Borough Council Natural Environment Team.

PLEASE NOTE: The requirement to replant is the responsibility of the tree owner even if the application was submitted by another person.

Reason: To retain the present visual amenity value of the area and ensure continuity of tree coverage.

Informatives

1. Removal of dead or dangerous wood: This does not require the formal consent of the Council. However written notice must be given 5 working days in advance of removing dead wood. Where a branch is deemed to be 'dangerous', i.e. where works are 'urgently necessary to remove an immediate risk of serious harm', you are required to give notice to the Council 'as soon as practicable after the works become necessary'.

2. Disturbance of wildlife: It is an offence under the Wildlife and Countryside Act 1981 (as amended) to disturb roosting bats or nesting birds. It is advisable to consult your tree surgeon/consultant to agree an acceptable time for carrying out any work. Wildlife and habitat controls are administered by Natural England who can be contacted on 0300 060 3900; enquiries@naturalengland.org.uk

If you wish to appeal against any of the conditions attached to this consent, please contact the Planning Inspectorate within 28 days of receipt of this letter to obtain the relevant forms:

The Environment Appeals Team, The Planning Inspectorate, Room 3/25, Hawk Wing,
Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN
