AMENDMENTS TO RMA REF
190466 PLOT F

NOV 2019

INTRODUCTION

This document sets out the changes in the approved plans to application ref: 190466 following the design development of the scheme since March 2019.

The amendments are a result of the alterations to the internal layouts to improve the residents approach into the development and amendments to the plant rooms and substations.

The alterations to the façades respond to changes in regulation 7 for combustible materials used in glass balustrades and changes to the facade to provide screening to louvres along the main elevations and changes as a result of the design development.

The following sections provide a more detailed summary of the changes.

GENERAL ARRANGEMENTS

SUMMARY OF CHANGES

Alterations to the lower ground floor layout have been made following consultation with SSE to suit the access requirements for future maintenance.

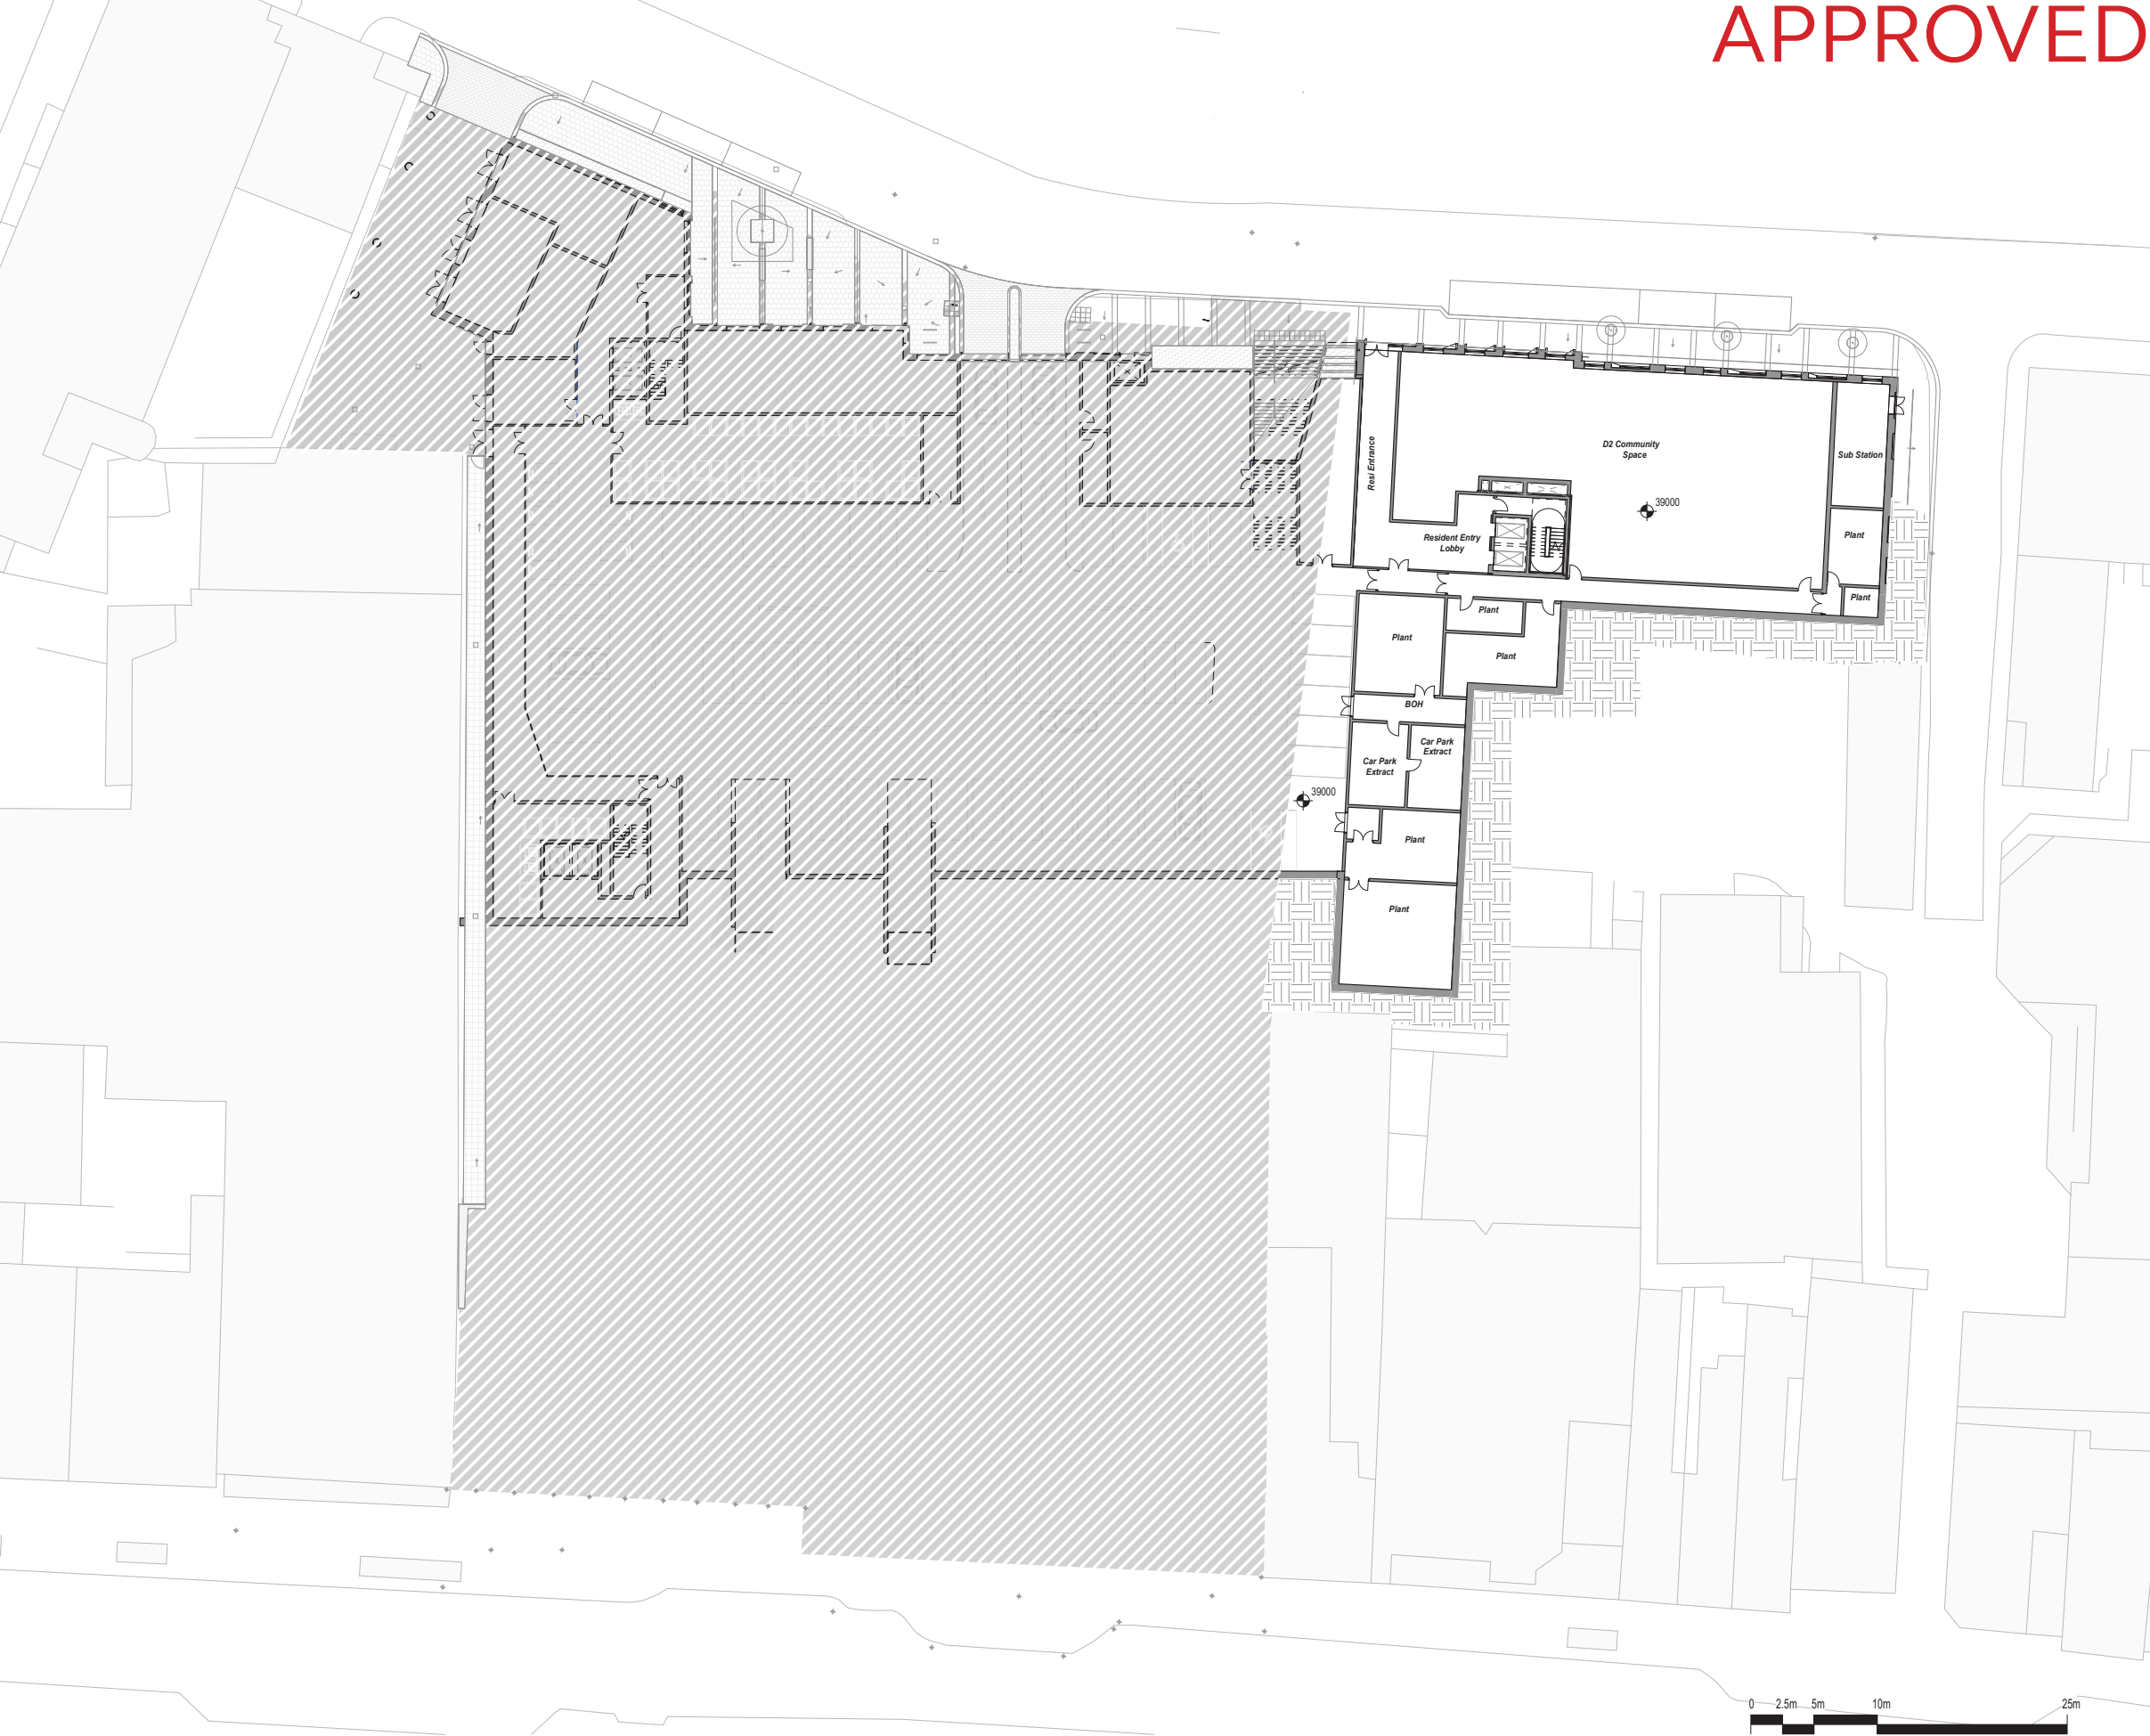

Internal alterations to the plant space following further design development or the space requirement.

At mezzanine level internal alterations to plantroom space follow changes at lower ground level. Storage reduce to provide additional residential unit space.

At ground floor level the entrance has moved south with amendments to entrance lobby and amenity space, resulting with an increased from 76m² to 133m² to the amenity provision.

ELEVATION - PLOT F GARRARD STREET

SUMMARY OF CHANGES

Due to changes in regulation 7 which restricts the use of glass balustrades in developments above 18m all glazed balustrades have been replaced by a metal railing.

The changes to façades along Garrard street are to provide screening to the plant room and general coordination adjustment with the internal layouts.

ELEVATION - PLOT F FRIARS WALK

SUMMARY OF CHANGES

Due to changes in regulation 7 which restricts the use of glass balustrades in developments above 18m all glazed balustrades have been replaced by a metal railing.

The changes to façades along Friars walk include the relocation of the residents entrance and the canopy above.
