

Newark Street/Crown Street, Reading Planting Schedule

Planning Permission 180417

General Landscape Notes

Topsoil and subsoils are to be carefully stripped and retained for re-use in proposed planting works. All existing and proposed subsoil layers are to be thoroughly cultivated to relieve any soil compaction and ensure free draining conditions prior to placing topsoil.

Hedgerows and shrubs areas are to have 400mm topsoil over well cultivated subsoil.

Standard tree pits for trees up to 18-20 G are to be 1200mm x 900mm deep. Tree pits to be backfilled with 600mm topsoil, over 300mm well cultivated subsoil, with well broken base to pit.

Provide root barriers/directors if required to protect kerbs, walls, buildings or other structures from existing or proposed root action from planting measures.

Hedgerows to be planted in a double staggered row at 4 plants per metre.

Finish all planting areas with a mulch of 50mm proprietary amenity bark mulch.

All plant materials, landscape materials and operations are to be carried out in accordance with best horticultural practice and in accordance with appropriate British Standards and codes of practice.

Trees 18-20cm girth and above to be double staked. Other trees to be single staked.

BED B1		Type	Quantity
Proposed tree			
Amelanchier Lamarkii	14-16cm G	Extra Heavy Standard	1
Proposed hedge stock			
Carpinus betulus	60-90cm 1+1	BR hedging transplant	44
Proposed shrubs and perennials			
Choisya ternata	30-40cm	2L – well branched	10
Hedera helix buttercup	40-60cmS	1.5L – well branched	20
Pyracantha Flava	40-60cm	2L – well branched	20
BED B2			
Proposed shrubs and perennials			
Choisya ternata	30-40cm	2L – well branched	10
Bergenia Silver Light		2L –pot grown	8
Geranium macrorrhizum Ingwerson’s		2L –pot grown	8
Rosa Kent	30-45cm	2L – well branched	15
Heuchera Palace Purple		2L –pot grown	8
WESTERN BOUNDARY ALONG METAL FENCE			
Proposed tree			
Magnolia Kobus	16-18cm G	Standard	1
Proposed hedge stock			
Carpinus betulus	60-90cm 1+1	BR hedging transplant	72
