

A 3D architectural rendering of a two-story house. The house has a dark grey gabled roof with a white chimney on the left side. The upper story is constructed of yellow brick and features two dormer windows with white frames and yellow lintels. The lower story is white and includes a large front window and a side door. A white car is parked in front of the house. The background is a clear blue sky.

An architectural elevation drawing of a two-story brick house. The main structure is a gabled house with a dark grey tiled roof and a brick chimney on the left. The walls are made of light-colored bricks. There are three windows on the upper floor: two on the left side under the gable and one on the right side. All windows are four-pane sash windows with light-colored frames. The ground floor features a white-painted entrance area on the left with a white door and a large white-framed window. To the right of this is a four-pane sash door. A small, single-story extension with a flat roof and white walls is attached to the right side of the main house, featuring a small four-pane window. A black silhouette of a person is shown walking on the sidewalk to the left of the house for scale. The background is a clear blue sky.

A stylized illustration of a two-story brick house. The house features a dark grey, shingled roof with a chimney on the right side. The main body of the house is constructed of red brick. On the left side, there is a vertical white downspout. The house has several windows: a large multi-paned window on the second floor, a smaller multi-paned window on the first floor, and a small square window on the ground floor. A white car is parked in front of the house on the left side. The background is a solid light blue sky.
