

Landscaping Statement

Trees

- 3 no. Amelanchier arborea - 12-14 cm diameter.
- 3 no. Davidia involucrate - 12-14 cm diameter.
- 1 no. Pyrus calleryana chanticleer 12-14 cm diameter.

All trees double staked with irrigation pipe.

Year 1/ 2

1. Weekly watering of sufficient amount (approx. 35 litres) for the first two growing seasons (April- October). This will allow for weather and ground conditions; watering will be increased or decreased as appropriate;
2. Inspection, weeding, adjustment of tree stakes to coincide with irrigation as needed;
3. Re-mulching annually.

Year 3/4/5

1. Annual inspections;
2. Manual weed control as required;
3. Pruning/repair of wounds (Oct-Feb) as required.

Wildflower Meadow

Supplier: Herbiseed - Mixed meadow mix (wildflowers 80:20 grass)

Year 1/2/3/4/5

1. Cut twice annually.
2. 1st cut - early spring
3. 2nd cut - after flowers have gone to seed.

Some over-seeded will occur early spring as required.

Shrubs

- Jasminum officinale Invertleith - 3 ltr * 4.
- Passiflora caerulea - 3 ltr * 4.
- Lonicera Japonica Hallis Prolific - 3 ltr *4.
- Clematis Multi Blue - 3 ltr * 4.

Year 1/2

1. Water as required (weather dependent).
2. Inspect, weed and tie to fence mesh as required.
3. Mulch annually.

Year 3/4/5

1. Inspect and weed weekly.
2. Prune as required and tie to mesh fence.
3. Mulch annually.
