

Fixing details

Selectaglaze secondary windows are designed to present a clean appearance on the room side. All units are purpose made to suit a particular window opening and so ensure the highest performance. The odd leg frame system allows tolerances to be accommodated without applying face cover fillets.

In almost all circumstances fixings are concealed within the framework. When larger section timber frames or cill extensions are required these are finish decorated on exposed room side surfaces. Typical fixing details are illustrated.

STANDARD SQUARE REVEAL FIX

- 33mm x 15mm twice primed softwood ground bedded on acrylic mastic and fixed to structure
- Odd leg frame with applied mastic lips ground and is fixed to it
- Local concealed packers take up opening tolerance
- Optional caulking point between frame and wall allows finished decoration

Guidance

- Set back minimum 12mm from wall face to avoid blowing plasterwork
- Any hinge fixings must penetrate into structure
- Enlarged timber grounds required when:
 - dealing with very irregular openings
 - providing access to remote blind controls
- Optional back fillet available to conceal packing
