

Diagram illustrating the proposed crane location and the truck at the market place. The crane is shown as a rectangular area with diagonal hatching, labeled "Proposed Crane location". The truck is shown as a rectangular area with horizontal lines, labeled "Truck". The crane is positioned to the right of the truck. The truck is labeled "MARKET PLACE" and "Truck".

Proposed Crane location:

- located on site with JCB
- North (Facing) side of site
- to be used for site works
- Sanitary and shower facilities
- Worked and moved by a
- crane lifting
- operator. He is to be
- located on a crane in position

Truck

MARKET PLACE

Proposed Carve out location as
discussed on 11/11/10
Barton (Reading) with Julia
Santley to be executed by
Wednesday (moved by a
motion) - I may be able to
attend once Carve in position

A line drawing of a vertical slatted chair back. It features a rectangular frame with a series of vertical slats. The backrest is attached to a seat base, which is shown in a perspective view at the bottom. The slats are evenly spaced and run the full height of the backrest.
