construction and demolition associated with the approved development will be subject to environmental health law.

4. The local planning authority has worked positively and proactively with the applicant to resolve relevant matters to allow permission to be granted within the prescribed target or agreed extended timescale for the decision to be issued.

5. During the course of construction, the developer should take care to ensure that no part of this development (foundations, eaves, guttering, etc.) would encroach on, under or across the boundary line with the adjoining property, as the requisite Notice has not been served on the owner of that property. This permission does not confer any right of access onto land that is not under the developer's control. The developer should also be mindful of the obligations and requirements of the Party Wall Act (1996) details of which can be found at:
