

Delegated Application Report**Target Date:** 20/09/18**Address:** Neuk, Field Road, Reading**Application No:** 181285/CLP**Proposal:** Single storey rear extension**Case Officer:** Sian Hickey**Introduction and Proposal**

The application site is a two storey mid-terraced property within a row of 4 properties. The property has an existing single storey rear extension. The properties in the row are characterised by two storey front projections with hipped roofs above. The properties have small rear gardens which rise up steeply to the rear boundaries of properties on Coley Hill. The properties to the rear on Coley Hill are Grade II listed buildings and along with the application site are located in the Russell Street/Castle Hill Conservation Area. The row of terraces to the east side of Field Road are different in character than the application site and are subject to an Article 4 Direction due to the patterned brickwork. The surrounding area is predominantly residential.

The proposal is for a single storey rear extension, next to the existing rear projection. The proposal would extend at a width of 3.1m, projecting to a depth of 2.8m. The proposal would have a hipped roof with a flat roof element which would attach to the roof of the existing rear extension. The height of the proposed extension would be 3.6m measured from ground level, with a height to eaves of 2.5m. A new door would be located on the rear elevation and the existing rear door would be replaced with a window. Materials have been selected to match those of the existing property.
