v2	Kat Kelly	16 Oct 2018	Final draft

Atlas Controls Ltd has prepared this report in accordance with the instructions of the above named client for their sole and specific use. Any third parties who may use the information contained herein do so at their own risk.

1. Contents

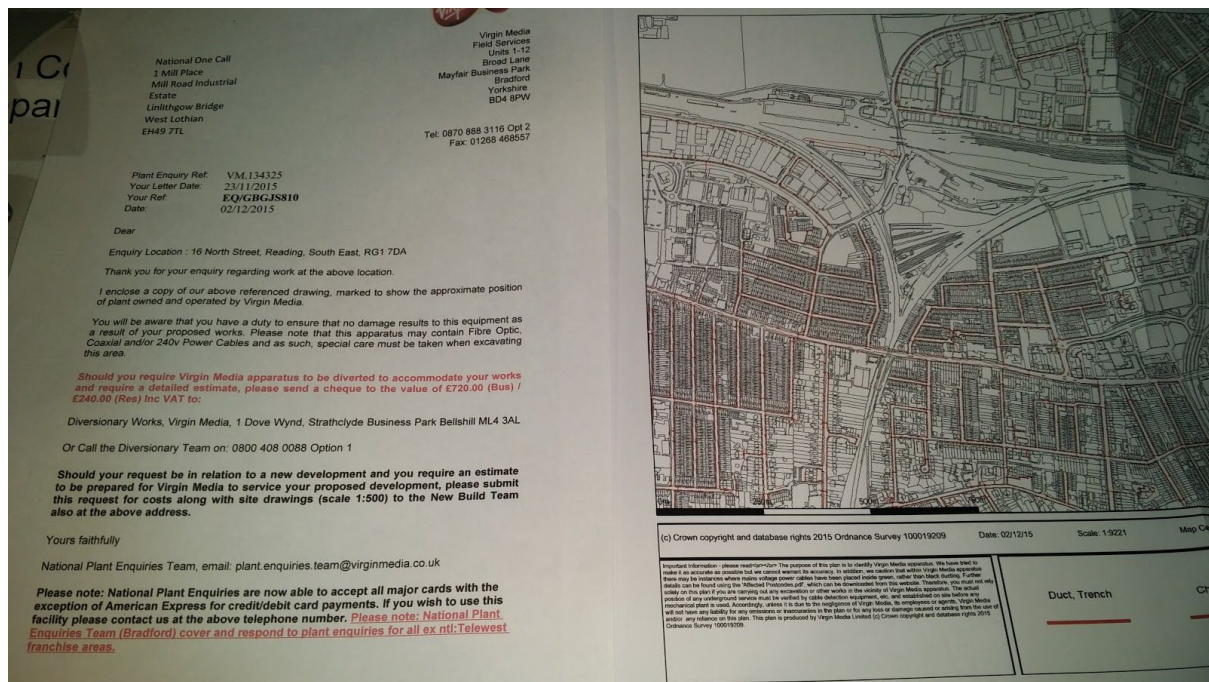

1. Contents	3
2. Utilities	4
2.1. Electricity Supply	4
2.2. Water	4
2.3. Internet and Telecom	5
3. Conclusions	5

2.3. Internet and Telecom

Due to the location of existing BT infrastructure to the site, it is not anticipated that there will be a connection or capacity constraint. BT telecoms normally takes place post planning when a site is registered.

Virgin media cable network was also available locally (see picture below). Confirmation would take place once building registered.

3. Conclusions

At present all services have sufficient capacity to supply the proposed development. Following the planning application further detailed dialogue with the services providers will be carried out.
