

Alternative Brick Stock Details

1.0 INTRODUCTION

In the Previous Discharge Application for Condition 10, the brick; 'Westley Red – Flats' by *Traditional Brick and Stone* was specified as part of 'ML01A – Materials List'. Since then the stock reserved for St Georges was reassigned by the supplier. As such the quantity of bricks do not meet the requirements of the project and another brick type has had to be sourced.

The chosen brick type is 'Hampshire Stock Plain Red' by *Michelmersh*, which has been chosen because it is nearly identical to the approved brick type.

Michelmersh bricks will be utilised on the residential building only, the *TBS* bricks will be reserved for the church extension.
