Code for Sustainable Homes Credits

- This product is suitable for developments using The Code for Sustainable Homes Technical Guide November 2010 or May 2009
- Can achieve up to 2 ENE8 Cycle Storage credits - see individual sheds for precise information
- Can achieve 2 MAN4 credits when incorporated as a Secured by Design shed at an ALO or CPDA's recommendation
- Convenient access: The shed must be situated with easy and direct access from/to the dwelling(s) and from/to a public right of way.
- Note: Access from the shed to public right of way through the dwelling is not acceptable i.e. where cycles are stored in a shed in the back garden in a mid-terraced home and there is no back garden gate.

Specification

- Supplied with silver sold secure ground anchors for each bike
- Supplied with silver sold secure hasp and staple for doors
- Supplied with silver sold secure padlock for hasp and staple
- 1m2 tool storage area provided
- All framework is constructed using 38mm x 50mm timber
- Door hinges and hasp and staple coach bolted through the shed structure
- The shed can be bolted to the ground (for SBD purposes)
- This shed meets Secured by Design standards but has not been certified by Secured by Design
