Dear Chris,

Re: Tree surgery works – Rear of Rose Kiln Court

Further to your request and my subsequent site visit today, please see below our quotation for the specified scope of works;

Our NPTC/IPAF & PASMA certified tree surgery team will undertake the following scope of works along approx. 74 linear metres of tree line located at the rear of the building, adjacent to the riverside;

- Working from an 8 metre scissor lift MEWP, cut back the protruding limbs of a line of Salix Alba to achieve 2 metre minimum clearance from the building to the full height of the roof gutter line.
- Arsing will be chipped and removed from site to licensed waste facilities.

Works will be completed by fully trained, qualified operatives. Waste will be disposed at a licensed facility unless otherwise specified. Price is inclusive of all labour, materials and delivery charges.

If trees are subject to a Tree Preservation Order or are situated within a Conservation Area, consent will be required from the Local Planning Authority before works can commence. We are happy to make this application on your behalf. Works to neighbouring trees will require the owner's written permission.

Please note that quotations submitted for approval are valid for a period of 30 days, after which time a review may be required.

We hope this meets with your approval and look forward to your instruction, in the meantime if you have any queries please do not hesitate to contact me.

Yours faithfully,

Marc Wilkinson
Regional Operations Manager – London, Central & East
