

Lowfield Road Development - Litter Collection Strategy

Background

The Lowfield Road site is a 28 unit, 2 bedroom temporary accommodation development in Caversham, Reading. At its southerly end is located a children's play area and within this space are 2, 120L stainless steel litter bins.

Litter Collection

An agreement has been entered into with Reading Borough Council's Streetcare Team to provide street sweeping, litter picking and litter bin emptying services to the site.

Services will be undertaken on a weekly and fortnightly basis, frequency as follows:

Street Sweeping - Fortnightly

Litter picking - Fortnightly

Litter Bin Emptying - Weekly

The frequency of services is typical for the size and scale of this development.
