Dear Dr Blowers

RE: PROPOSED WORKS TO ONE CEDAR TREE AT ST ANDREWS CHURCH, HARROGATE ROAD/ALBERT ROAD, READING - SUBJECT TO TREE PRESERVATION ORDER NUMBER 157/01.

Thank you for your application of 20 April 2017, regarding the above and your subsequent email of 21 April 2017 confirming the intended works.

Further to my visit on 20 April 2017, I can confirm that the following proposed works, as detailed in your application and confirmed in your email, are approved subject to the conditions below:

- T1 Cedar –
 - o Thin crown by a maximum of 10%, concentrating on those more crowded parts of the crown (see attached photo) including the removal of crossing branches (note informative 8 below) and dead wood;
 - o Reduction of long, over-extended lateral branches (see attached photos) back to the main crown line or reduction in length by removing no more than one third of the foliage of each branch – whichever is lesser.
 - o Removal of one limb, back to source, overhanging Albert Road pavement due to weakness caused by previous failure (see attached photograph).

Conditions

1. Five days notice in writing shall be given to the Council prior to undertaking the approved works.

Reason: To ensure that the Local Planning Authority is given sufficient notice of the works to enable the effective monitoring of tree work within the Borough.

2. All tree surgery shall be in accordance with BS 3998: (2010) Tree Work - Recommendations.

Reason: To ensure that all works are carried out in an acceptable arboricultural manner

3. This decision is valid for two years from the date of this notice after which the consent lapses

4. Climbing spikes shall not be used whilst undertaking any form of works on living trees, except on trees to be felled.

Reason: Spikes can cause extensive long-term damage

Informatives

1. Removal of dead or dangerous wood: This does not require the formal consent of the Council. However written notice must be given 5 working days in advance of removing dead wood. Where a branch is deemed to be 'dangerous', i.e. where works are 'urgently necessary to remove an immediate risk of serious harm', you are required to give notice to the Council 'as soon as practicable after the works become necessary'.

2. Disturbance of wildlife: It is an offence under the Wildlife and Countryside Act 1981 (as amended) to disturb roosting bats or nesting birds. It is advisable to consult your tree surgeon/consultant to agree an acceptable time for carrying out any work. Wildlife and habitat controls are administered by Natural England who can be contacted on 0300 030 6000

3. Tree work consents on land not owned by the applicant: It is strongly recommended that the owner of the tree be advised of any proposed works. The owner's permission must be sought if the tree works involve work past the boundary line. This consent does not in any way imply that this Council has informed the owner of sought permission or will condone the use of consents to force any landowner to grant such permission.

4. Crown lifting of trees over the footpath and carriageway: If the clearance of vegetation overhanging the highway only involves the removal of branches to give a ground clearance to the statutory heights of 2.7m over the footpath and 5.5m over the road, this does not require formal consent from the Council. You are advised, however, to give notice to the Council of these intended works in order that they can be agreed.

5. Crown cleaning should not include the removal of fused natural braces (branches or stems), or the removal of entwining branches or rubbing branches (where they may be forming a natural brace) from the crown of a semi-mature to fully mature tree without carrying out an assessment of any junctions formed below such natural braces.

Reason: Removal of natural braces may lead to failure of weak unions.

If you wish to appeal against any of the conditions attached to this consent, please contact the Planning Inspectorate within 28 days of receipt of this letter to obtain the relevant forms:

The Environment Appeals Team, The Planning Inspectorate, Room 3/25, Hawk Wing, Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN.

Email: environment.appeals@pins.gsi.gov.uk

Tel: 0117 372 8192

If you require any further assistance, please do not hesitate to contact me on the above number.

Yours sincerely

Sarah Hanson
Natural Environment Officer
