Dear Mrs Goldsmith

**RE: PROPOSED WORKS TO ONE COPPER BEECH TREE AT 19 SOUTHCOTE FARM LANE,
READING - SUBJECT TO TREE PRESERVATION ORDER NUMBER 122/05.**

Thank you for your application of 4 November 2017, regarding the above.

Further to my colleague Sarah Duckworth's visit, her email of 29 November 2017 advised of the concern we had over the proposed works and suggested amended proposals. You confirmed in an email of 11 December 2017 that you were happy with the amendments. I can therefore confirm that the following proposed works, as detailed in your amended application, are approved subject to the conditions below:

- Copper Beech (T6 of application; T1 of TPO) – crown lift to 4m above ground level creating wounds no greater than 5cm diameter; selective branch reduction to provide 2-3m clearance from the house and BT cables; remove dead wood and crossing/rubbing branches (note informative 5 below).

Conditions

1. Five days notice in writing shall be given to the Council prior to undertaking the approved works.

Reason: To ensure that the Local Planning Authority is given sufficient notice of the works to enable the effective monitoring of tree work within the Borough.

2. All tree surgery shall be in accordance with BS 3998: (2010) Tree Work - Recommendations.

Reason: To ensure that all works are carried out in an acceptable arboricultural manner

3. This decision is valid for two years from the date of this notice after which the consent lapses

4. Climbing spikes shall not be used whilst undertaking any form of works on living trees, except on trees to be felled.

Reason: Spikes can cause extensive long-term damage

5. Crown cleaning should not include the removal of fused natural braces (branches or stems), or the removal of entwining branches or rubbing branches (where they may be forming a natural brace) from the crown of a semi-mature to fully mature tree without carrying out an assessment of any junctions formed below such natural braces.

Reason: Removal of natural braces may lead to failure of weak unions.

Informatives

1. Removal of dead or dangerous wood: This does not require the formal consent of the Council. However written notice must be given 5 working days in advance of removing dead wood. Where a branch is deemed to be 'dangerous', i.e. where works are 'urgently necessary to remove an immediate risk of serious harm', you are required to give notice to the Council 'as soon as practicable after the works become necessary'.

2. Disturbance of wildlife: It is an offence under the Wildlife and Countryside Act 1981 (as amended) to disturb roosting bats or nesting birds. It is advisable to consult your tree surgeon/consultant to agree an acceptable time for carrying out any work. Wildlife and habitat controls are administered by Natural England who can be contacted on 0300 060 3900; enquiries@naturalengland.org.uk

3. It is best to avoid works in the period immediately before or during bud burst and leaf fall to minimise the effect on the long-term health of the tree

4. Crown lifting of trees over the footpath and carriageway: If the clearance of vegetation overhanging the highway only involves the removal of branches to give a ground clearance to the statutory heights of 2.7m over the footpath and 5.5m over the road, this does not require formal consent from the Council. You are advised, however, to give notice to the Council of these intended works in order that they can be agreed.

If you wish to appeal against any of the conditions attached to this consent, please contact the Planning Inspectorate within 28 days of receipt of this letter to obtain the relevant forms:

The Environment Appeals Team, The Planning Inspectorate, Room 3/25, Hawk Wing, Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN
