Design & Access Statement for Extension to 17 Alexandra Rd, Reading RG1 5PE

No. 17 Alexandra Road is a Victorian property in a conservation area that has an existing single storey extension to the rear; a pitched roof with a porch on the front of the house.

The extension will be a matter of adding some extra space on the rear of the property, built in line with No. 19 Alexandra Rd.

The proposed extension will match the neighbour's extension in dimensions (floor scheme) and finishes on the application submitted for that property.

On the front elevation, due to the dark entrance hall, we are replacing the exiting tiled pitched roof with a full glass pitched roof to allow more natural light into the house. Matching the neighbours' scheme and finishes.

The new windows and doors will be UPVC to match existing rear door & windows.

The overall design of the proposals is very much in keeping with the existing Victorian property with hipped roofs and facing brick.

The existing access to the site is to be maintained as existing.
