The Proposal -

Due to the rise in anti- social behavior at the address and the need to raise security around the car park due to 24 hr working and transfer of sensitive information from vehicles to the above offices during the night. The proposal is to replace and extend existing metal fencing to the perimeter of the car park area and increase the fencing height to approx 1800mm along with two automatic sliding security gate access, in and out.

The fencing will be metal, blue painted anti climb fencing with anti climb gaurd fitted to the top.
