The historical maps shown were reproduced from maps predominantly held at the scale adopted for England, Wales and Scotland in the 1840's. In 1854 the 1:2,500 scale was adopted for mapping urban areas and by 1896 it covered the whole of what were considered to be the cultivated parts of Great Britain. The published date given below is often some years later than the projected date. Before 1901, all OS maps were based on the Cassini projection, with important surveys of a single county or group of counties, giving rise to significant inaccuracies in outlying areas.

The historical maps shown were reproduced from maps predominantly held at the scale adopted for England, Wales and Scotland in the 1940 s. In 1954 the 1:2,500 scale was adopted for mapping urban areas and by 1956 it covered the whole of what was considered to be the cultivated parts of Great Britain.
