Legend

Reading Borough Council

Flood outline from 2003 floods (RBC)

Flood Defences

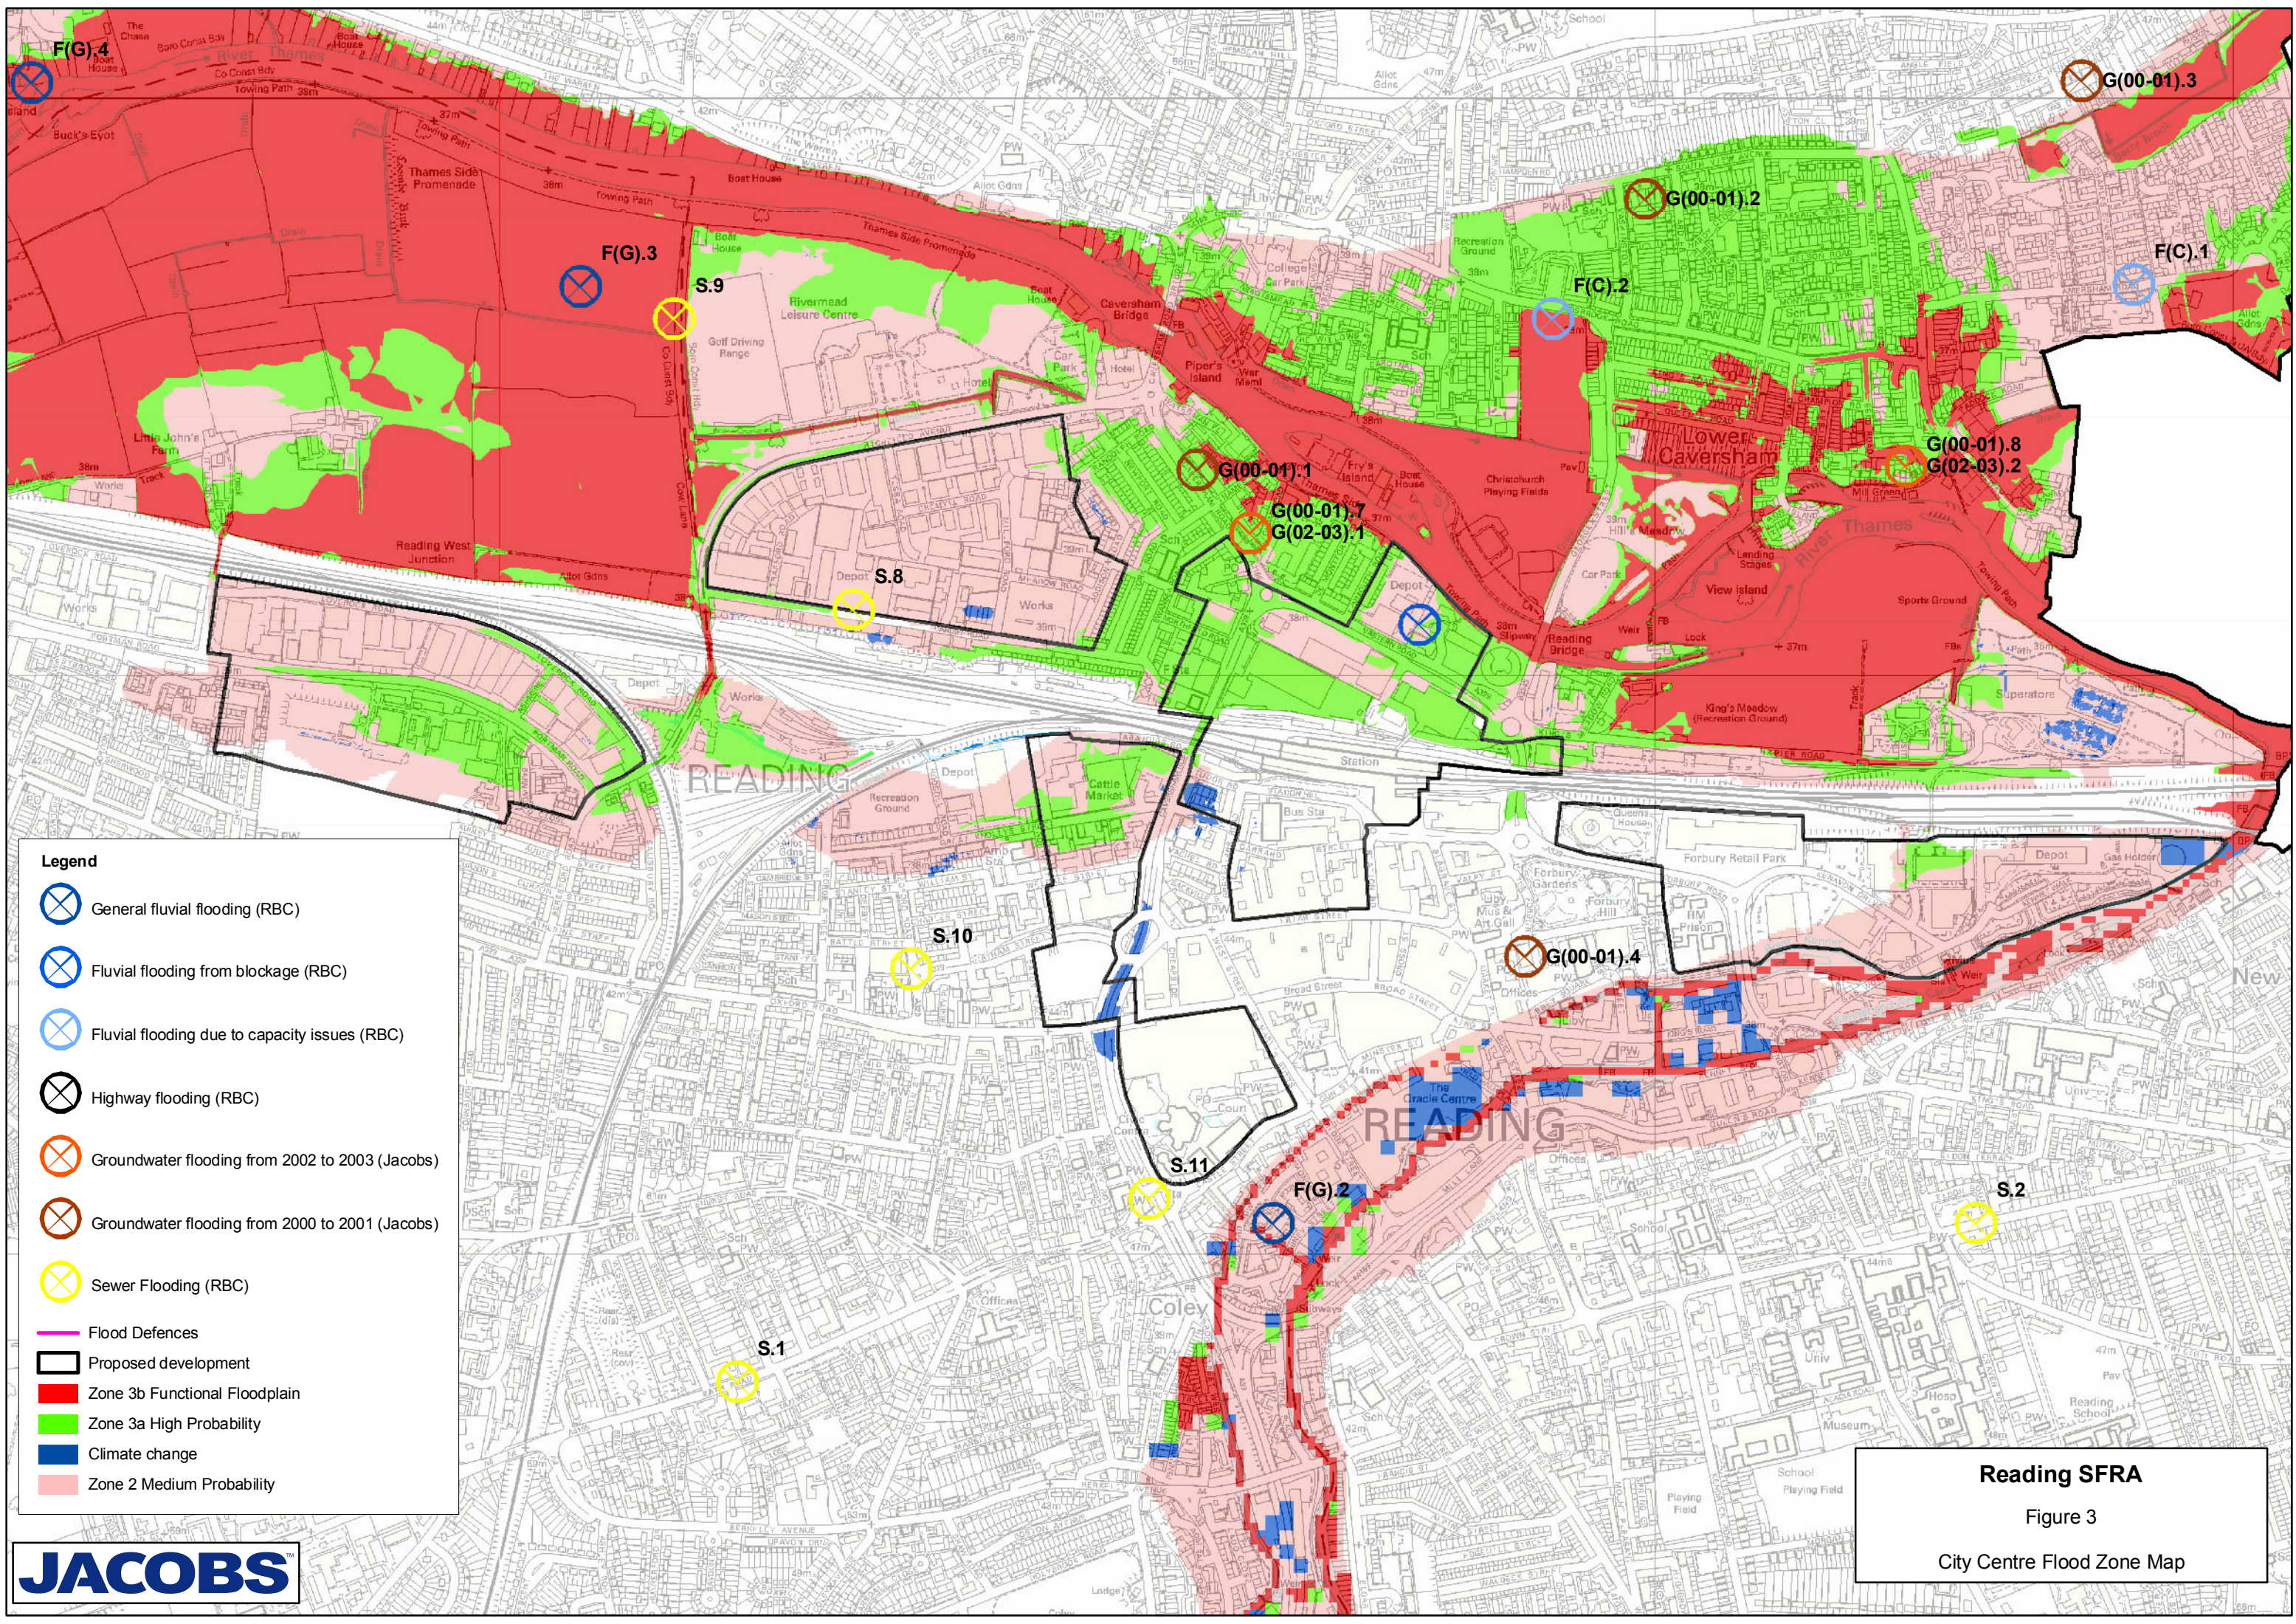

This map illustrates the Reading Strategic Flood Risk Assessment (SFRA) for historical river flooding. The Reading Borough Council boundary is shown as a black outline. Areas affected by flooding in 2003 are highlighted in orange, primarily along the River Thames and in the central and southern parts of the town. Pink lines indicate the locations of flood defences. The map includes various geographical labels such as Emmer Green, Caversham, Reading, Southcote, and Whiteknights, as well as specific landmarks like the Caversham Bridge and the Sand & Gravel Pit. The River Thames is shown flowing through the town from north to south.
