

Fibre cement slates

The appearance of the slated roof has been part of the built environment since time immemorial. As well as adorning some of the nation's most important historic buildings and being a staple of vernacular architecture in many parts of the UK, slated roofs are used increasingly in design-led projects for the commercial, public, leisure and retail sectors.

Introduction

Marley Eternit fibre cement slates provide the charm of a natural slate roof with all the economical, functional and environmentally friendly attributes of modern slate technology.

Quality and sustainability

An A+ rating (the lowest environmental impact) in the Building Research Establishment's Green Guide to Specification can be achieved using Marley Eternit's fibre cement slates, concrete and clay tiles.

Marley Eternit operate a Quality System to BS EN ISO 9001 and comply with the Environmental Standard BS EN ISO 14001 (independently assessed by BSI), Health and Safety Standard OHSAS 18001 and are also certified with a 'Very Good' rating to BES 6001: Responsible Sourcing.
