

Vermin control measures as submitted by email from the agent on 10/04/2024 at 16:33

Regular bin inspections - the applicant would ensure bins are inspected at least daily

No bins to be left open - the applicant would ensure that bins are not left open

Removing waste that could attract vermin - The applicant would ensure bins are regularly collected regularly in order to ensure that waste did not attract vermin/pests

Use of vermin/rat proof materials - Where required - vermin/rat roof materials would be utilised as part of the development

Regular maintenance of bins - As above, the bins would be maintained to a high standard as part of the development

Vermin/rat prevention measures/pest control/deterrent - Measures to achieve this would be put in place as part of the development. Existing rat control measures are already in place.
