Dear Sir,

Regarding 3 Whitley street Reading RG20EG

Thank you for informing us regarding planning application from 5 Whitley street Reading RG20EG

Application number 240360

Regarding Dwelling house to 5 flats.

This conversion into 5 flats will cause serious traffic problems into the rear of the property on the surface road. Residents and their guests would then be forced to park on the surface road causing problems which is already abundant. This will cause further nuisance/disturbance .

Further, too many people in this small site would cause noise especially if they play loud / uncontrolled music which would be subject to raised complaints to the council and police.

Besides, this area has always been a commercial parade. Why the council approved the premises for a conversion from commercial into a resident site 20 years ago is not understood.

We know it has been a shop primarily and in views of the above reasons it is requested that this planning permission is turned down please.

Look forward to hearing from you,

Yours faithfully

Sham Bahri.
