Subject: Not been informed of a planning application

RBC action wanted by customer: I would like a full explanation as to why the residents in and around this application did not receive a letter industry of it and I would like this application to be rejected as per my objection and of the other residents.

Details: I have just come across a planning application number 221769 that has been submitted to the council which is near to my house and for which we had no previous knowledge about and didn't receive a letter informing us of this . This does not follow the normal process of the council so I am suspicious as to why this is the case in this instance. I have made an objection to this application as we already suffer from excess traffic, overflowing rubbish which has led to an infestation of rats . There is a lot of parking of cars on the pavements already which is a hazard for cyclists and pedestrians trying to cross the road as their view is obstructed this is very dangerous and will make this even worse. The noise levels are already high in our area and we don't need more pollution from the smoke the traffic fumes are enough . Anti social behaviour has risen here over the years caused by revving of cars at night , loud noises from the petrol station opposite, drug dealers, drunkenness and sex workers hanging around the shop area and petrol station. These issues haven't been resolved and you want to add to our woes by placing a takeaway on our road . I would like to know why the residents in and near the planning application did not receive a letter from the council informing us of this and there are going to be a lot of objections to it for all of the above reasons that I have stated . I am very disappointed by this situation and I would like a full explanation behind this .
